## **SPANISH CULTURAL STUDIES**

**Professor:** Ana Peláez

**Course description:** In this course we will study a set of artistic expressions (painting, sculpture, architecture, theatre, cinema, gastronomy and folklore) created in Spain from the Middle Ages up to the present day, analyzing the historical and socio-cultural context in which they were produced. The objective of the course is to give an overview of the most relevant Spanish cultural expressions. We will analyze their roots, influences, peculiarities and their most characterizing and differentiating traits. This course is organized from a thematic point of view and is presented chronologically. A special emphasis will be placed on Hispano-Islamic artistic manifestations and the strong influence of the Muslim world in Hispanic culture. This will include a study trip to Córdoba and Granada.
